

31250 Introduction to Data Analytics

Assignment #3

Data Mining in Action

Florian Lubitz

FEIT

13688799

florian.lubitz@student.uts.edu.au

Contents

1	Initial data exploration	1
1.1	Attribute features	1
2	Preprocessing and transformation	1
3	Attacking the problem	1
4	Classification techniques	1
5	The best classifier	1
	List of Figures	2

1 Initial data exploration

1.1 Attribute features

2 Preprocessing and transformation

3 Attacking the problem

4 Classification techniques

Parameter optimization

5 The best classifier

List of Figures
